

# CHEMISTRY OF CONSTRUCTION MATERIALS

## Mod. C-COS-1/EV

### DESCRIPTION

Lime

- Quicklime
- Slaked lime
- The grip of lime
- Disintegration of limestone

Cement and concrete

- Production of cement
- Cement mortar and concrete
- Porous concrete

Gypsum

- The firing of gypsum
- The grip of gypsum
- Preparation of a gypsum mould

### SUPPLIED WITH

THEORETICAL - EXPERIMENTAL HANDBOOK

# CHEMISTRY OF GLASS AND CERAMICS

## Mod. C-VET-1/EV

### DESCRIPTION

Glass

- Preparation of glass containing sodium and calcium
- Preparation of borosilicate glass
- Preparation of stained glass
- Preparation of opal glass
- The hydrolysis of glass
- Glass processing

Clay and kaolin

- Clay and kaolin
- Enamelling

### SUPPLIED WITH

THEORETICAL - EXPERIMENTAL HANDBOOK
